Education

Galgotias University

Bachelor of Technology in Computer Science

CGPA: 8

Aug 2019 – July 2023

Greater Noida, Uttar Pradesh

Experience

Nokia

Intern

Aug 2022 – July 2023

Chennai, India

- Acquired proficiency in various technologies, including **Python**, **DevOps**, **Shell scripting**, and utilized tools such as **Jira**.
- Developed a **power app** to streamline time booking for Nokia employees, showcasing strong technical skills and problem-solving abilities
- Created a **release notes generator** for a project, gaining a deep understanding of the project life cycle and enhancing attention to detail and project management skills.
- Learned and implemented **Excel macros**, utilizing formulas and automated tasks to optimize data processing and improve productivity.

Fordel Studios

Front End Developer Intern

Jan 2023 – March 2023

Remote

- Worked on the development of Fordel Studios' official website using **AngularJS** as the primary framework.
- Collaborated with fellow interns in an early-stage startup environment, gaining valuable teamwork and communication skills.
- Strengthened technical skills in frontend development and gained knowledge of industry-standard practices.

Projects

Myntra Clone | *HTML5, CSS3*

- Developed a high-fidelity clone of Myntra, a leading e-commerce platform, using **HTML** and **CSS**. Leveraged the latest web technologies such as HTML5 and CSS3 to create a visually appealing and interactive user interface that closely resembles the original website.
- Implemented a responsive design strategy, ensuring optimal user experience across various devices and screen sizes. Employed **CSS media queries** and flexible layout techniques to adapt the website's layout and components seamlessly.
- Utilized **semantic HTML markup** and CSS styling to achieve consistent and intuitive user interactions.

Google Keep Clone | *HTML5, CSS3, JavaScript, ReactJS*

- Developed a high-fidelity Google Keep clone utilizing **React Hooks** and the **useState** function to efficiently manage the application state and enable real-time rendering.
- Implemented essential features of Google Keep, including note creation, editing, deletion, and organization through drag-and-drop functionality.
- Utilized modern front-end technologies such as **React**, **JavaScript**, and **CSS** to create a visually appealing and responsive user interface across various devices and screen sizes.

Technical Skills

Languages: C++, HTML/CSS, JavaScript, SQL

Developer Tools: VS Code, Sublime Text

Technologies/Frameworks: Git, PHP, Jira, Gerrit, GitHub, ReactJS

Extracurricular

- Participated in Job-A-Thon 10: Hiring Challenge by GeeksForGeeks.
- 1498 Max rating on Leetcode.
- Solved over 400+ problems on **Leetcode** and **Geeksforgeeks**.
- 5 Star on **Hackerrank**(in CPP)
- Participated in CODEFIESTA (Hackathon) organized by IEEE SJCE Student Branch, JSS STU , Mysuru.
